## PICCARD SETS NEW ALTITUDE MARK ON STRATOSPHERE TRIP

Scientist Rides Ten Miles Above Surface of Earth in Aluminum Ball—World a Strange Thing, He Says, Looking From Aloft—Tells of Experiences

CAVALLARO DI MONZANRANO, Italy, Aug. 18 (AP).—Auguste Piccard and Max Cosyns came down to earth this afternoon, having gazed on the world from the greatest altitude ever attained by man—more than ten miles.

When they landed they were somewhat shaky, very tired and exceedingly modest. Swarms of persons, including government officials who came by airplane, descended on them, but neither Piccard nor Cosyns was in a mood to accept applause.

Professor Piccard made certain the balloon which had taken him into the stratosphere was well cared for and that his delicate scientific instruments, which may have recorded evidence to indicate whether the universe is dying or immortal, were safe.

## GERMAN FLYER REACHES COAST

Von Gronau and His Flying Boat Arrive at Prince Rupert

PRINCE RUPERT, Aug. 18 (CP).—Swooping down from a cloudless sky, Captain Wolfgang von Gronau brought his huge Dornier Wal flying boat to rest here late this afternoon to complete another long leg of his "safe and sane" around-the-world flight.

No sooner had he stepped from the plane after a 750-mile nonstop flight from Lac la Biche, Alberta, than he and his three companions sought a resting place before zooming northward to Alaska, across the Pacific Ocean and back home to Berlin.

Only three times on the flight from the Northern Alberta hamlet was the machine, christened the Gronland Wal, sighted before reaching Prince Rupert, the goal the German aviator set for himself before taking off. Maintaining a speed of approximately 100 miles an hour, the plane was first sighted in the Hudson-Hope area of British Columbia at 2:25 p.m. (M.S.T.) after leaving Lac la Biche at 10 a.m. (M.S.T.).

Two hours later it was sighted over Smithers, and at 4:55 (P.S.T.) it had reached Prince Rupert, a total elapsed time of 7 hours 55 minutes.

Three a conqueror of the Atlantic Ocean, the big German flyer will wait here for possibly a day or two for motor inspection, and refueling before tackling the flight across the Pacific. His present world flight, starting from List on the North Sea island of Sylt, has taken him across the Atlantic via Greenland and across Canada with a short dip into United States territory.

DEPARTURE UNCERTAIN

The thirty-nine-year-old flyer, who was drafted from the German Navy to the Air Force against his wishes, was uncertain tonight when he would take off on his northward hop before flying across the Pacific. His present plans call for a stop at either Cordova or Dutch Harbor, in Alaska, then across to the Kurile Islands, Tokyo, Moscow, and then Berlin, where he expects to arrive about the end of September.

## Vancouver's Police Chief Is Criticized

VANCOUVER, Aug. 18 (CP).—Charges that Chief of Police C. E. Edgett spends a good deal of his time the race track, instead of in his office, were made by H. G. A. McLennan, president of Southland Ratepayers' Association, at a meeting of the federated body last night. It was decided by the organization to communicate with the Police Commission, asking if Chief Edgett has been placed on half-time, or whether it is part of his duties to attend the horse races.

## Sets New Altitude Record

PROF. Auguste Piccard, Belgian scientist, accompanied by Max Cosyns, returned to earth safely yesterday after ascending to the greatest altitude ever attained by man—54,776 feet. It was the scientist's second trip into the stratosphere. Next year he plans to make his third flight from some point in Canada. The above photograph shows Professor Piccard entering the metal gondola of his balloon.

## Atlantic Silence Shrouds Intrepid British Aviator

Captain Mollison Believed to Be Nearing Newfoundland in Attempt to Set New Record for Double Crossing—Weather Forecasts Not Promising for Flyer

S. T. JOHN'S, Nfld., Aug. 18.—Somewhere above the tossing Atlantic—if all is well—Captain J. A. Mollison is winging his way tonight on a shuttlecock flight between the old world and the new.

If he had maintained the speed of 100 miles an hour with which he started early this morning, he would have passed the halfway point between Portmarnock and Harbor Grace, and he is expected to reach his destination with the coming of dawn.

FOGGY TO SEAWARD  
The weather was on his side tonight, but he was bucking a forecast of southerly winds and rain, already tinged with fog to seaward. Assuming that he was flying high and following the shipping route, he should dodge many of the perils of the elements.

A generous supply of gasoline and lubricating oil was awaiting him at Harbor Grace, and he is expected to refuel quickly for a speedy dash to New York to complete the first installment of his projected round-trip flight in two days and a half.

BIDS BRIDE FAREWELL  
PORTMARNOCK, Irish Free State, Aug. 18 (AP).—Capt. J. A. Mollison, who is attempting to set a new record for a double crossing of the Atlantic, is expected to arrive in Harbor Grace, Newfoundland, today.

## RADIUM ORE IS SENT FOR TEST

Evidence of Silver and Pitchblende Struck in Shipments to Toronto

TORONTO, Aug. 18.—Evidence of a strike of silver and radium in the Great Bear Lake district was brought to this city today by Major Bernard Day, chief engineer for a company which has been exploring the area. Two tons of ore were brought out by airplane and freight train.

A detailed report to the Dominion Government on the possibilities of the field will be made by Dr. F. D. Clarke, of the Dominion Geological Survey, who is now making a second trip to the Great Bear district.

According to Major Day, 240 men and one woman are scattered throughout the Great Bear area, searching for the riches its fifteen square miles are believed to hold.

## Lottery Ring Is Alleged

NEW YORK, Aug. 18.—United States Senator James J. Davis, of Pennsylvania, and six other persons, were named in Federal indictments today, charging them with participating in lotteries promoted by fraternal organizations to raise charity funds.

The indictments resulted from an investigation of the alleged sale of lottery tickets by the Eagles, the Moose, Mystic Shrine, and other organizations.

United States Attorney George Z. Medalla, who directed the investigation, declined "in advance of trial" to comment on the amount of money involved, reported as high as \$50,000.

## Building Wrecked By Tossed Bomb

SEATTLE, Aug. 18.—A bomb tossed against the side of the Green Pasture Dairy, a plant in the Rainier Valley district, tonight nearly demolished the building, broke plate glass windows in nearby stores and rocked other structures for a block around.

No one was in the building at the time, otherwise loss of life might have occurred, police said.

## HITLER WILL AWAIT CALL

Leader of German Fascists Expects Further Political Developments

BERECHTESGADEN, Bavaria, Germany, Aug. 18 (AP).—Adolf Hitler, leader of Germany's 13,700,000 Fascist National Socialists, declared today he had no intention of marching on Berlin.

"Why should I?" he said. "When I am there already? The question isn't whether I'll march on Berlin, but rather who will have to march out of Berlin."

LARGEST REPRESENTATION  
High up in the Bavarian mountains, 107 miles from Munich, Hitler is calmly awaiting further political developments in the certainty that no matter what Cabinet is established after the Reichstag meets August 30 his Nazis will have at least 75 per cent representation in the Government.

"According to the rules of democracy," he said, "any party or group of parties commanding 51 per cent of the electorate can claim the right of having the entire Government turned over to them."

"Our movement at the last elections won 37 per cent. This means that of the 51 per cent necessary for taking over the Government we can furnish about 75 per cent."

HAS RIGHT TO LEADERSHIP  
"Let me put it in terms of business," he said. "I would like to see the 51 per cent of the electorate who are not with us, but who are not against us, to have the right to leadership."

Without us legal government in Germany is no longer possible. We can well afford to wait. I hold my safe position. I now have 13,700,000 behind me, and next time I'll have 14,000,000 to 15,000,000 and so on."

## ALL CHEERFUL AT RECEPTION

Ottawa Chateau Scene of Brilliant Gathering—British Delegates Hosts

OTTAWA, Aug. 18 (CP).—The clouds of uncertainty which have hovered over the Imperial Economic Conference since it first convened, have blown away, and tonight all connected with this epoch-making meeting joined in merriment and dancing.

The splendor and gaiety of tonight's reception have, perhaps, never before been equaled in Canada's Capital. The brilliant lights of the chateau's luxurious ballroom and reception rooms shone on men and women from the Motherland and every Dominion.

RETURN HOSPITALITY  
The United Kingdom delegation last night announced that tonight it would be the hosts to the members of the Canadian Government, and their wives, at a banquet. This was to be followed by a reception at which the delegation from the United Kingdom would reciprocate for the hospitality which the Government and the people of Canada and the people of Ottawa had extended to them.

Tonight's festivities came at a particularly appropriate time. While the echoes of a swelling Irish flute notes, over in the East, 100 yards away, the press of the world was being told that the United Kingdom and Canada had composed their differences, and a complete understanding was at hand. So it was a time for rejoicing.

## BRILLIANT GATHERING

Hundreds of richly-gowned women and men from all parts of the Empire, with medals for many wars and orders for many notable accomplishments, filed by the receiving line.

The wood looks, the serious countenances which one encountered everywhere a few nights ago, were absent, and the smiles which came from success from the accomplishment of a great undertaking, had taken their place. The favorable outcome of the conference was assured, and everyone was happy.

## Seven Killed on Bolivia Frontier

ASUNCION, Paraguay, Aug. 18 (AP).—A Bolivian lieutenant and six men were killed in a series of clashes at the observation post of Capana in the Gran Chaco region, during which the post changed hands twice in two days, the Ministry of War announced today.

The Bolivian force was reported to be fleeing toward Fort Boqueron in the north. Only one Paraguayan was reported wounded.

## ACCORD CLEARS WAY FOR HAPPY END TO CONFERENCE

Agreements to Be Signed Today and Formally Approved at Plenary Session Tomorrow—Final Details of Anglo-Canadian Treaty Being Completed—B.C.'s Interests Preserved

## Australia Wins Demand For Better Beef Market

HOUSE OF COMMONS, OTTAWA, Aug. 18.—Accord has been reached, agreements will be signed tomorrow, and at a plenary session of the Economic Conference agreements between the United Kingdom and other Dominion treaties with Canada will be given several minutes which have already been drafted for signature. There are certain details to be hammered out. While the general principle of controlling Russian trade has been agreed to, there is still a reluctance on the part of British delegates to apply the pressure to an extent that is desirable to Canada.

## GIRLS USED AS GUNFIRE SHIELD

Bandits Rob Bank of \$40,000—Police Afraid to Shoot

BELOIT, Wis., Aug. 18.—Seven bank robbers, who used six frightened girls as shields against gunfire of police, today held up the Second National Bank of Beloit and escaped with between \$40,000 and \$50,000.

For three blocks the girls were forced to ride through busy downtown streets on the running boards of the robbers' automobile. A chief of police and other officers, pistols in hand, watched helplessly as the car drove away from the bank.

Three blocks away the robbers forced the young women to jump from the moving car.

TWO ARE STUNNED  
In the bank the robbers, armed with pistols and two sub-machine guns, slugged B. F. Eldred, president, and Henry Coke, customer. The bandits stuffed into two laundry bags the currency with which the bank was to meet several large payrolls.

Threatened by guns, the girls were forced to scoop up the money. In the midst of the activity the police telephoned the bank, but the robbers refused to give an answer at the insistence of the bandit who was designated to ally the fears of police, who had telephoned to inquire the reason why the burglar alarm had been sounded.

Noted Flyer Starts Atlantic Flight  
CAPT. J. A. MOLLISON, who took off yesterday from Ireland for Harbor Grace, Newfoundland, and returns here to make the first East-West solo flight and the first round trip over the Atlantic by plane.

## Federals Turn Back Offensive

RIO DE JANEIRO, Aug. 18 (AP).—Federal forces operating in the Mantiqueira region have repulsed the strongest Constitutionalists offensive since the rebellion in Sao Paulo began six weeks ago, the Ministry of War announced tonight.

A communiqué said the rebels laid down an artillery barrage and launched an attack on the Federal right wing in the Tunnel sector. Loyal troops repelled with a counter-bombardment, raking the enemy's advance trenches, and the insurgents withdrew.

## B.C. Municipalities To Receive Nearly Million in Cheques

Provincial Government Distributes \$946,690 in Motor Licences and Liquor Profits—Greater Victoria Area Shares in \$106,908 of Grants

CHEQUES for nearly \$1,000,000 were being mailed to British Columbia municipalities yesterday by the Provincial Government, covering the annual distribution on distribution of liquor profits of the board's year.

The municipalities' share of the motor vehicle licences is fixed by statute at \$570,000, and this amount is being sent out, on the basis of population. Liquor profits to a total of \$376,690, were being distributed on account of the last half of the fiscal year 1931-32, on the basis of total days school attendance. The two distributions add up to \$946,690.

IN VICTORIA AREA  
Victoria and surrounding municipalities will draw substantial cheques under the distribution. Under liquor profits, in the first cheque of the calendar year, Victoria will receive \$24,175; Oak Bay, \$3,714; Esquimalt, \$2,341; and Saanich, \$9,555. Under motor vehicle licences, Victoria will receive \$42,854; Esquimalt, \$6,460; Esquimalt, \$3,990; and Saanich, \$14,219. All four municipalities will receive \$106,908 from the aggregate from these two distributions.

That on account of motor licences is final for the fiscal year, 1931-32, and the only distribution under that head to be made this calendar year. The grant on account of liquor profits will be made later.

## ABANDONS PLAN FOR TOKIO HOP

Nat. C. Browne Finds Plane Incapable of Lifting Enough Fuel—Tests at Seattle

SEATTLE, Aug. 18.—Abandonment of his plans to attempt an other transpacific flight this year was announced tonight by Nat. C. Browne, New York aviator, on his return from a day's flight to Copale Beach, where he has been making load-lifting tests in recent days. He explained that he had made on adjustments he had made on his plane loaned to him by L. C. Bushmeyer, a Seattle aviation enthusiast, he still found it incapable of lifting enough fuel to allow him a reasonable margin of safety on the 5,000-mile flight.

"I'll have to put it off until spring," he added.

WILL AID B.C. TRADE  
There is a likelihood that while preferences will be given, either by tariff or quota, for the products that British Columbia is interested in, that such will not be as great as the Pacific Coast countries desire. Nevertheless, British Columbia trade will be increased to Britain, while it will be greatly enlarged to various Empire units with which bilateral agreements are being signed.

Whatever the outcome may be, British Columbia may rest assured that her cause has been magnificently championed by Premier Bennett and Hon. H. H. Stevens.

TREMENDOUS PRESSURE  
The pressure on behalf of Russia has been tremendous. Russia is offering huge contracts to British industries with a promise of hand, British press and commercial bodies have been hammering the delegates, while some Canadian papers have been supporting the Russian cause with cable clippings from Soviet supporters to an extent that has caused both comment and bitterness.

Canada, as a whole, will benefit from the agreement to be signed tomorrow. It will prove to be a stimulus to trade. The fact that some measure of control will be set up on dumping of commodities from Britain signifies a great victory for Premier Bennett. It was this issue that nearly wrecked the conference on Monday.

## YOUTH INJURED IN CAR CRASH

Edwin Wheaton Taken to Jubilee Hospital—Condition Reported Serious

Edwin Wheaton, of Grant Street, was seriously injured in an auto-mobility accident on Shelbourne Street yesterday afternoon. He was taken to the Jubilee Hospital suffering from injuries to the back, abdomen and right leg.

According to police, Mrs. W. G. Buckingham, of 1238 Esquimalt Road, was driving north on Shelbourne Street, and when about 300 feet north of Hillside Avenue the car swerved sharply to the right, striking the boy who was riding a bicycle in the same direction in which the automobile was proceeding.

Constables West Harper and Harry Meyer attended the scene of the accident and removed the boy to the Jubilee Hospital in the ambulance. Dr. T. W. Gray attended the case and X-ray photographs were taken to determine the extent of the injuries.

## Hundreds Die In Terrible China Flood

FEIPING, China, Aug. 18 (AP).—Thousands of Chinese in Shanxi Province were left homeless when the greatest flood in fifty years rushed down a mountain bare of trees, leaving desolation in its wake. Railways, highways and telegraph lines were washed away, and delayed dispatches telling of the disaster reached here only today. Property damage was very heavy. At the same time cholera is raging in the province.

Twenty-five hundred deaths have been reported in 100 villages.

## OREGON SENDS HORSE ENTRIES

C.P.R. and Colony Farm  
Holstein Cattle Will Arrive at Willows Today

Eighteen horses from the D. P. Burge Stables in Albany, Ore., and a six-horse team arrived at the Willows yesterday to take part in the Horse Show at the annual exhibition next week.

This morning a string of twenty-

nine horses from the Ruby Stock Farms in Gresham, Ore., will arrive today. They are the Holstein herd, bred by the Ruby Stock Farms.

### OTHER ARRIVALS

Two more important entries in the cattle division also will arrive today. They are the Holstein herd from the C.P.R. supply farm in Strathmore, Alberta, and the Colony Farm, Escondido, Holstein entries.

The C.P.R. supply farm has the largest herd of Holstein cattle in Canada and is noted for its large number of high production records. Several of its champions in past years have been sold for four and five-figure amounts. Some have been sold for as high as ten and fifteen thousand dollars.

The pick of this herd will be shown here during fair week, after which they will swing around the British Columbia circuit and also compete in the United States.

Incidentally the senior sire at Strathmore C.P.R. farm was bred at the Colony Farm and has proved one of the best sires that ever lived in either herd.

### B.C. MUNICIPALITIES TO RECEIVE NEARLY MILLION IN CHEQUES

Continued from Page 1  
Liquor profits for the last half of the fiscal year 1931-32, and will be followed in December by distribution of grants for the first half of the fiscal year 1932-33, making two

sets of cheques on this account in the calendar year 1932.

Motor vehicles, as provided by statute, contributed the usual amount, unchanged in so far as the municipalities are concerned. Distribution of liquor profits was very little less, at \$376,690, than the amount handed out last December for the period ending September, 1931, which was \$380,780, but down considerably from \$460,984 distributed in August, 1931, for the period ending March 31, 1931.

As the municipalities' share is 25 per cent of the profits of the board, the board's profits for the period ending March 31, 1932, were in the neighborhood of \$1,507,783, compared to slightly over \$2,000,000 at the last report for the previous six months' term.

Sales for the six-month period ending March 31, 1932, must have been in the neighborhood of \$2,000,000, as the gross profit of the board is about 25 per cent of sales.

Comparing twelve-month periods under the board's year, profits for the peak year were about \$4,200,000, and this year \$3,250,000, it was stated by Hon. J. W. Jones from memory, without access to the actual figures. This would place growth in sales for the best twelve-month period at \$1,000,000, and for this year around \$1,000,000.

It is evident from the figures that the rate of decline in the profits of the board has been nearly arrested, showing only approximately \$4,000 in the difference between the two years.

The actual distribution, by centres, for both liquor profits and motor licence receipts, is shown as follows:

Municipality	Liquor Profits	Motor Licence Receipts
Alberni	897.14	1,069.19
Armstrong	2,123.00	2,668.19

## HONOR MEMORY OF UNSUNG HERO

Monument Unveiled in Nova Scotia for Early Canadian Statesman

ANNAPOLIS ROYAL, N.S., Aug. 18 (CP).—The memory of one who did as much as any man, not only to secure the sovereignty of British in the New World, but to foster and further the amity of races of which the greatness of that New World is built, was honored today on the bit of earth he loved and defended two centuries ago.

His exploits and sturdy patience had long gone unheralded, except in dusty and disconnected fragments, but today Jean Paul Maclean, the man of the hour in Annapolis Royal.

Citizens of this town, which Maclean held for the British for thirty years in the era before Halifax was founded, thronged the grassy environs of his tomb to see a cut-stone monument unveiled in his memory by Hon. W. H. Covert, Lieutenant-Governor of Nova Scotia.

### HAD MARKED ABILITY

They heard D. C. Harvey, provincial archivist, refer to him as "an exiled Frenchman, who thought not of himself, but of the British, a British officer who knew how to obey as well as to command; a counsellor of great wisdom; an executive of marked ability; a practical but human man."

They heard Professor Harvey tell of his Huguenot Frenchman's arrival here with the force that paid the town in 1710, how he stayed to reinforce the precarious foothold of the young empire on American soil; how he remembered that the expulsion of the Acadians, a policy through which the tragedy of that occurrence could have been avoided.

### ONLY PLACE OF STRENGTH

In their mind's eye, they saw a gray, stout-shouldered, wise and tired old man going in 1740 to pay his respects and turn over the power to the British. He had been in fact, if not in name, to Cornwallis at Halifax. They thought, too, perhaps, of his lament that "after thirty years of rule, the only place of strength in this province, and the only one where the English now have a footing" because he was in that region "the granary not only of the province but of the neighboring governments."

In that observation, Jean Paul Maclean, lamenting thirty years of apparently ineffectual effort, yet proved himself a prophet.

### PICCARD SETS NEW ALTITUDE MARK ON STRATOSPHERE TRIP

Continued from Page 1  
ARE WELL SATISFIED  
"We are very well satisfied with our flight," the professor said, while hundreds of gaping farmers stood about staring at the men who had been far above the rain and the clouds in a little aluminum ball attached to a balloon.

His altitude was 16,700 metres, or 54,776 feet. On the professor's first flight last year the top height was 51,793 feet.

Professor Piccard, forty-eight years old, lean, his head crowned by a shaggy mass of hair, and his twenty-five-year-old assistant, stepped off at 8:06 o'clock this morning (11:06 p.m., Wednesday, Eastern standard time). They were in the air about twelve hours.

### RESULTS UNCERTAIN

The scientific results of this new flight into the heavens remained uncertain. The professor hoped to gather evidence which will assist in determining whether the universe is "dying" or immortal. Such evidence would come from measurements of cosmic rays. But before it is possible to establish anything it will be necessary for his data to be examined and checked.

When Professor Piccard stepped out of the porthole of the balloon gondola, he tried to stand erect but could not. He swayed, and only the crowd pressing about him kept him from falling. He placed an arm on the shoulder of a man nearby to steady himself.

### COLD WAS INTENSE

"It's the difference between the intense cold up there and the intense heat down here," he explained.

### ANTIDUMPING FORMULA

The accepted anti-dumping formula, as forecast yesterday, does not specify Russia in particular. It has Russia in mind, but it strikes at unfair competition from anywhere which would nullify the effect of tariff preferences in the British market. Dumped lumber from Finland would be affected just as much as dumped lumber from Russia.

There are, however, some points still outstanding in the Anglo-Canadian agreement. These will be further discussed at a meeting of the two delegations tomorrow.

Between the United Kingdom and Australia, it was intimated last night, remaining points are only minor.

### MEAT DISPUTE SETTLED

Agreement has already been reached in principle on the great dividing issue of meat preferences. From the outset of the conference, Australia pressed for a preference on meat in the British market. She asked preferential treatment particularly against chilled beef from the Argentine. When the United Kingdom pleaded her heavy investments in the Argentine, Australia replied that British investments in Australia were higher still. Eventually, tariff preferences passed into the background. Discussion turned on other methods of restricting foreign meat imports.

The method actually in view has not been announced. Expectations are that it will take some mild form of quota.

### AUTO ACCIDENT

A car driven north on Shelbourne Street by Edward A. Langley came into collision with another machine driven east on Haultain Street by Walter Hamilton, 982 Taylor Street, yesterday evening. Mr. Langley's car was badly damaged. No one was hurt.

## TENSE SCENES IN COAL AREA

National Guardsmen Will Assist Peaceful Picketing in Illinois Region

TAYLORVILLE, Ill., Aug. 18.—With National Guardsmen ordered to move into the district, and 7 a.m. set as the hour when wholesale picketing of mines will be started, an atmosphere of tension gripped this turbulent Illinois coal region tonight.

A grim and motley throng of some 15,000 Central and Southern Illinois coal diggers late today completed their "march on Taylorville," intent upon stopping local coal mines from operating under a reduced wage scale.

MILITIA READY  
Four National Guard units—infantry, cavalry and machine gunners—were ordered to entrain at midnight from Camp Grant, near Rockford, where the rest of the militia is in training camp.

Strike leaders, however, pushed plans to prevent several hundred local miners, who are satisfied with the new \$5 daily wage, from resuming work in the morning. There was little disorder as mass meetings were held.

Six National Guard planes returned to Rockford after reconnoitering above the caravans of miners.

The guard troops were ordered to Decatur and Springfield, thirty miles away, where they will be ready for action if plans for peaceful picketing result in open violence. In the west.

"A fine start, anyhow," said one of the miners. "I think he's wonderful."

A few minutes later she got into a plane and sped away to catch up with him and accompany him to the first hundred miles or so of his journey.

Mollison, a twenty-seven-year-old Scotman and veteran of the Royal Air Force, who already has made a record of aviation history with record flights, hoped to be back on this side within two and a half days.

### FLYING SMALL SHIP

The plane on which he is depending to carry him on the first crossing of the Atlantic from East to West is a tiny Puss Moth, weighing little more than a ton. It is the type of ship the Prince of Wales uses for sports, with the exception that Mollison has turned his craft into a flying gasoline can.

He made the take-off at 5:35 a.m. Eastern standard time. Seventy minutes later he crossed over Galway on the west coast, flying at an altitude of about 200 feet and a speed of approximately 100 miles. The weather was favorable.

At 11 a.m. Eastern standard time the Cunard liner Ascania reported sighting him 650 miles at sea, racing toward the West in fine clear weather.

Weather conditions were perfect—better, the flyer said, than he ever expected. There was a light westerly wind to the middle of the Atlantic, he was informed, and from there on a tendency to easterly winds, which would be in his favor. There was little fog.

### HAS AMPLE FUEL

The flyer had encountered considerable difficulty in obtaining permission to attempt an ocean flight in such a small plane. The British Air Ministry objected, but he threatened the wings and argued that he could carry enough gasoline to fly the distance half over again without refueling.

Before the take-off he estimated he would need twenty-three hours to reach Newfoundland, which would put him over land some time between 4 and 5 o'clock Eastern standard time tomorrow morning. If he holds to his course the first mark in North America he will pass over will be Heart's Content, Nfld. The name of the ship, which has a glittering silver fuselage, is the Heart's Content.

He planned to refuel at Harbor Grace and continue to New York, where the plane will be quickly overhauled in preparation for an immediate return flight.

The flyer carried with him a letter from Alfred Byrne, Lord Mayor of Dublin, to Mayor James J. Walker of New York.

### SQUADRON MAKES LONG HOPE

HONOLULU, Aug. 18.—A squadron of six naval aviators, which left Pearl Harbor for French Frigate Shoals, 500 miles westward, arrived safely at their destination today.

## PEASANTS MYSTIFIED

It was almost nightfall when they were watched by the crowds of stocky peasants, to whom this was a most extraordinary matter, for the peasants are not newspaper readers and they had no idea what the queer globular carriage represented.

Along about nightfall the balloon and aluminum ball were loaded into an Air Force truck, and hauled to the Aviation School at Desenzano, where they were placed in a hangar. Neither Piccard nor Cosyns would leave the spot until their apparatus had been stowed away.

Continued from Page 1  
Mollison, who left his bride of three weeks today and took off on a projected round-trip flight to New York, was sighted this afternoon 650 miles off Ireland and going strong.

His bride, the former Amy Johnson, herself an eminent flyer, watched his ship as it disappeared in the west.

"A fine start, anyhow," said one of the miners. "I think he's wonderful."

A few minutes later she got into a plane and sped away to catch up with him and accompany him to the first hundred miles or so of his journey.

Mollison, a twenty-seven-year-old Scotman and veteran of the Royal Air Force, who already has made a record of aviation history with record flights, hoped to be back on this side within two and a half days.

Weather conditions were perfect—better, the flyer said, than he ever expected. There was a light westerly wind to the middle of the Atlantic, he was informed, and from there on a tendency to easterly winds, which would be in his favor. There was little fog.

### HAS AMPLE FUEL

The flyer had encountered considerable difficulty in obtaining permission to attempt an ocean flight in such a small plane. The British Air Ministry objected, but he threatened the wings and argued that he could carry enough gasoline to fly the distance half over again without refueling.

Before the take-off he estimated he would need twenty-three hours to reach Newfoundland, which would put him over land some time between 4 and 5 o'clock Eastern standard time tomorrow morning. If he holds to his course the first mark in North America he will pass over will be Heart's Content, Nfld. The name of the ship, which has a glittering silver fuselage, is the Heart's Content.

### RUSSIAN DUMPING MEASURE HAILED

SAINT JOHN, N.B., Aug. 18 (CP).—The news will be received throughout this province with greatest satisfaction, declared Hon. C. D. Richards, Premier of New Brunswick, when informed of the news from Ottawa that Canada and the United Kingdom had reached an agreement on the troublesome question of Soviet Russian dumping.

Premier Richards took an active part in the negotiations at Ottawa between representatives of the United Kingdom and Canadian lumber trade.

"The forms which have been arrived at of course has a very definite application to lumber," the Premier said, "and for that reason New Brunswick will be particularly gratified."

Premier Richards sounded a note of warning, however, when he continued, "at the same time one cannot overlook the fact that the anti-dumping provisions are enforced to the degree to which the efficacy of the agreement depends."

## YUKON TAKES ON NEW LIFE

More Machinery for Recovery of Gold Is on Way In—Mayo to Work All Winter

The Yukon mining development is this year taking on renewed life. This is the information brought by G. A. Yardley, district inspector of national revenue, who has been on an inspection tour which took him beyond the Arctic Circle. As he was coming out he met the equipment for two new hydraulic equipments going into the territory. This will make four in this class and there are also five of the dredge type already there.

At the same time Mr. Yardley learned that things at Mayo were looking very well, with the result that work will be carried on there all winter. The intention had been to close down at Mayo for the winter months, but recent development showed better results, with the result that the operating company has decided to keep on working all winter.

**IN ARCTIC SLOPE**  
On this inspection trip Mr. Yardley went down the Yukon to the Porcupine River and continued northeastward by way of the Porcupine and the Old Crow River to an office of the department which is within the Arctic Circle at the headwaters of the Old Crow. It is located where the waters divide in their course to the sea, some flowing to the Yukon and on to Bering Sea and others into the Arctic Ocean.

The station there is under the control of the Royal Canadian Mounted Police. From Dawson Mr. Yardley made the trip in company with members of that force. The inspection of the office was the first one made for many years. In the fur trading country which surrounds the office there are few whites. The members of the R.C.M.P. and a few white trappers alone are to be found. All the rest of the population is confined to the native Indians, few of whom speak anything but their own language.

**INDIAN CUSTOMS**  
Some peculiar customs are observed by the natives. One of these is a pronounced desire on their part to shake hands with a stranger coming in. As a result Mr. Yardley was called upon to shake hands with several hundred of the natives whom he met.

Another practice observed by them has to do with the taking farewell of the country. What the origin of the ceremony is he is at a loss to understand, but preparatory to the visitor leaving the Indian women go through the performance of tossing him into the air. This the inspector submitted to without protest. Atlin was included also in the inspection tour. That centre has had a good year as far as expenditures are concerned, owing to the prospecting by way of airplanes which has been going on there throughout the season. An American company has had as many as five planes busy most of the time. There has been little announcement of the results in a mining way, however.

## VICTORIAN CHOSEN PRINCIPAL OF HIGH SCHOOL AT RUPT

Henry C. Gilliland, B.A., son of Mr. and Mrs. W. J. Gilliland, of 1321 Jervis Street, received notice yesterday of his appointment to the principalship of King Edward High School, Prince Rupert, to succeed D. H. Hartness, B.A., who has been appointed principal of Oak Bay High School.

## GRAND MASTER PAYS VISIT AT NANAIMO

NANAIMO, Aug. 18.—Brother Frank Clark, of Prince George, Grand Master of the I.O.O.F. of British Columbia, paid a visit to Black Diamond Lodge, No. 5, here last night. He was introduced by D.O.M. Bro. John Moore and was accompanied by Past Grand Master W. Walkem, E. G. Cavale, John Brown and P.O. Patriarch J. R. Crellin. The meeting was well attended, there being seventeen visiting brothers from Ladysmith, twelve from Duncan and many others from different lodges in British Columbia. The Grand master gave an address on the object and purposes of the order and was given an ovation on its conclusion. At the finish of the business session the brothers adjourned to the dining-hall, where the Rebekahs had prepared refreshments. Songs, speeches and recitations brought a pleasant evening to a close.

## DIED ON WEDNESDAY

The death occurred on Wednesday of George William Gibson, aged seventy-one years. He is survived by one son, Frank, of this city; two daughters, Mrs. H. Lewis and Miss Edith Gibson, of this city; five sisters in Vancouver, and two sisters at Gibson's Landing. The funeral will take place on Monday afternoon at 2 o'clock from McCall Bros' Funeral Home, Rev. N. C. Brannon will conduct the service, after which interment will be made at Ross Bay Cemetery.

## MRS. CUNNINGHAM BURIED

The funeral of Mrs. Katherine Edith Cunningham, who passed away on Monday, was held yesterday afternoon in the presence of her relatives and a large gathering of friends. The casket and floral racks were covered with many beautiful flowers. During the service, which was conducted by Rev. S. H. Lundie, of Sooke, the hymns "Abide With Me" and "Rock of Ages" were sung. The remains were laid at rest in Royal Oak Burial Park with the following acting as pallbearers: R. W. Payne, R. Ward, J. A. Cunningham and P. Harris.

## HUNDREDS ATTEND DOUBLE FUNERAL

Miss E. M. Gilliland and W. I. Francis Laid to Rest at Royal Oak Yesterday

Hundreds of sorrowing friends of Miss Ethel Marjorie Gilliland and Wilfred Irvin Francis, victims of a recent drowning accident in Shaganigan Lake, gathered yesterday at the double funeral to pay their last respects to the young couple. The service was conducted in the Metropolitan United Church, with Rev. Dr. W. J. Sippell, Canon A. del. Nunn and Rev. E. F. Church officiating. The church choir rendered two hymns, "Safe in the Arms of Jesus" and "Peace, Perfect Peace."

Interment was made in the Royal Oak Burial Park. Beautiful flowers were conveyed to the cemetery on the racks of two hearses and in four floral cars. Former school friends of the young couple acted as pallbearers, and included D. Genn, Roy Lund, R. W. Tervo, W. Ward, Thomas Stevenson and Lloyd Bassett for Miss Gilliland, and J. Curner, Louis Milligan, Bruce Macmurchie, B. W. Curner and R. Ard for Mr. Francis.

## MRS. H. STRATFORD CALLED BY DEATH

The death occurred yesterday morning at St. Joseph's Hospital, of Gertrude Stratford, wife of Hugh Stratford, of 1133 Palmer Road, in her forty-seventh year. Born in this city and a resident of forty years, she had been a resident of two daughters, Mrs. Norman Harris, of Victoria, and Miss Thelma Stratford, at home; her mother, Mrs. Mary Bates, of 1354 Devon Street; two sisters, Mrs. S. Perkins, of Millgrove Street, and Mrs. G. Atkinson, of 1354 Devon Street; and a brother, Frederick, Harold, Walter and Steven, of Victoria, and John, of Cowwood, also one grandchild. Arrangements for the funeral will be announced later.

## FUNERAL TOMORROW

Tomorrow, at 3 o'clock, funeral service will be held for Mrs. Eliza Jones, Rev. William Allan officiating. Burial will be at Royal Oak Burial Park.

## LAID TO HER REST

The funeral of Mrs. Flora Jane Wells, who passed away in this city on Tuesday, took place yesterday afternoon. Rev. J. Jull conducted the service, during which the hymns "A Few More Years Shall Roll" and "Abide With Me" were sung. Interment was made in the Royal Oak Burial Park, with the following as pallbearers: T. S. Mitchell, J. A. Corlett, A. T. Wells and A. Linsell.

## FUNERAL YESTERDAY

The funeral of Alfred J. Bartlett, who passed away in this city on Sunday, took place on Thursday afternoon. Rev. P. Conley conducted the service, during which the hymns "Rock of Ages" and "Jesus, Lover of My Soul" were sung. Interment was made at Ross Bay Cemetery with the following as pallbearers: F. L. Penahan and H. Brown, as honorary pallbearers; A. Lissenden, E. Rowland, H. Holmes, J. W. DeBald, R. Dinsdale and C. M. Brown as active pallbearers.

## HEAT KNOCKED HIM OUT

If you think it only natural to be knocked out by the heat, you are wrong. A person who eats properly will not mind the heat—but, on the contrary, enjoy it. What is the secret? Simply this: Keep your blood normally alkaline. How? By taking the bulk of your diet fruits, steamed vegetables, salads, egg yolks, almonds, milk and Roman Meal—the only alkali-forming grain food known.

## ROMAN MEAL NEED NOT NECESSARILY BE EATEN HOT

It is just as beneficial cold, and each Roman Meal package has recipes for delicious ways to eat it. It will keep your blood normally alkaline (nonacid) and your digestive system operating properly. So don't think that you can "eat anything" and enjoy the summer. Stick to alkali-forming foods—stick to your Roman Meal this summer.

Write for free booklet, "HOW TO KEEP WELL," and other literature, also sample of Roman Meal and Kofy-Sub, the alkaline beverage, to Robert G. Jackson, M.D., 315 Vine Avenue, Toronto 9, Ontario. (Adv.)

## THIEVES FAIL TO FIND LOOT

Burglars Break Into Nanaimo Store But Steal Only Stamps

NANAIMO, Aug. 18.—Some time during the night or early hours of this morning burglars entered the upstairs premises, occupied by George S. Pearson, M.P.P., as a wholesale house in the Van Houten Block on Commercial Street, and ransacked the premises. They escaped with revenue stamps amounting in value to some \$2 and over-looked some \$100 cash in bills in addition to a small quantity of silver and coppers.

It is believed they made their entrance through a skylight.

A second burglary recorded was that of the Nanaimo Bakery, located on Irwin Street. A small loss was reported here. Up to the present time police have no clues in either case.

## BIG SALMON RUN NOW ON

Many Large Fish Caught at Campbell River and Other Island Points

A telephone message received from J. S. Isaac, secretary of the Tye Club at Campbell River, informed the Victoria and Island Publicity Bureau that a record run of Tye salmon was on. On Wednesday twenty fish were taken weighing from forty to fifty pounds each, while yesterday morning at the time of telephoning, one weighing as high as fifty-two pounds had been recorded.

The bulletin issued for this week, compiled from reliable sources, gives the following information relative to fishing on Vancouver Island:

**Salmon**—This sport is now at its height. Springs and cohoes are being taken at all points in east coast waters, from Victoria to Campbell River. Fish running include springs up to fifty pounds and cohoes up to sixteen pounds. Specially good sport reported from Brentwood Bay, Campbell River, Parksville, Comox, Qualicum. Methods: Trolling, light or heavy tackle, lure or bucktail fly. Trip weight should be used if fishing deep.

**Sea Bass**—Good off Breakwater, Victoria, and Saanich Arm. Methods: Light tackle, silver spinners, minnows or halibut skin. Evening and early morning.

**Sea Trout**—Good at Comox, Fulford Harbor and Oyster River. Methods: Very light tackle, casting spinner or bucktail fly or silver doctor.

**FRESH WATER FISHING**  
Trout—Fly. Reports: Puntledge River at Comox, good; Campbell River and Buttle Lake, good; Little Qualicum, fair; Forbidden Plateau and Kamloops trout, good. Trolling. Reports: Sproat Lake, Campbell River, Cameron Lake and Cowichan Lake, fair. Methods: Wading or trolling from boat. Species: Cutthroat, Rainbow and Dolly Varden. Kamloops on Forbidden Plateau.

**Black Bass**—Reports: Florence Lake and St. Mary's Lake, fair.

**TO BE INSTALLED TODAY**  
CALGARY, Aug. 18 (CP).—Rev. Peter J. Monahan, D.D., recently-appointed Roman Catholic Bishop of Calgary, arrived here tonight from Eastern Canada and was greeted by a large delegation of civic and religious officials. Bishop Monahan will be formally installed as Bishop of Calgary at a colorful ceremony in St. Mary's Cathedral tomorrow night.

Germany plans further protection for agriculture.

**WINNIPEG BARRISTER DEAD**  
WINNIPEG, Aug. 18 (CP).—J. R. Hansford, well known barrister, and lieutenant-colonel of the 8th Reserve Battalion, died here today in his sixty-eighth year. He had been ill for some time. When the 144th Battalion was organized during the Great War he was appointed a junior major and in 1916 was gazetted lieutenant-colonel of the 23rd Battalion.

## PLEADS FOR WORLD PEACE

S. Wettrick, of Seattle, Addresses International Meeting of Rotarians

Over four hundred Rotarians, their ladies and a few invited guests sat down at noon yesterday, in the Empress Hotel, at what was described as an international inter-city luncheon. There were present members and ladies from fourteen different Rotary clubs of British Columbia and neighboring states of the Union. The programme was in the hands of the Seattle club.

The principal speaker was Samuel Wettrick, of Seattle, who pictured the early consummation of the dream of Lord Tennyson, who had foretold the trend of many modern introductions ending in the federation of the world. Mr. Wettrick alluded to the part which Rotary was taking in this forward movement for the creation of good fellowship among the nations of the earth and the elimination of war as a means of settling differences.

He felt that a gathering like that at the luncheon, an intercity gathering from two friendly nations, inspired the consideration of such a subject.

The Kellogg Pact and the World Court at The Hague were both referred to as steps in the direction of eliminating recourse to arms in settling disputes. Many differences had been ironed out at The Hague already, and he had hope that still greater things would result from the creation of that court.

**CLUB HAD MISSION**  
He called attention to the objective set by Rotary International,

looking to good fellowship among the nations, and hoped all members of the clubs would advocate as a duty to the organization the peaceful settlement of disputes, so that there might come about a time of "Peace on Earth, Good Will Among Men."

Captain George McGregor, president of the Victoria Rotary Club, extended a hearty welcome to the visitors, and in turn introduced the presidents of the clubs represented who introduced their respective members present. Port Townsend had come 60 per cent strong. The other clubs represented were Anacortes, Bellingham, Everett, Mount Vernon, Olympia, Port Angeles, Seattle, Sedro Woolley, Sequim, Sumner, Tacoma, Vancouver and Nainaimo.

Mayor David Leeming extended a welcome on behalf of the city, and referred to the good work being done by Rotary. He had spent a happy time during the visit of Rotary International governors and executive to Victoria a short time ago.

Stuart Mannell, president of the Seattle club, expressed the thanks of the visitors for the invitation to attend this luncheon with Victoria Club. Victoria, he said, was almost an international city. In Puget Sound they had a way of regarding this city as belonging to them all.

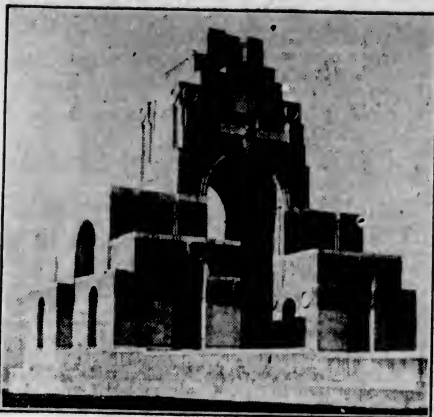

**INTERESTING INITIATION**  
J. Gordon, of Tacoma, recited, R. Vivian, of Seattle led a programme of singing which included the initiation of J. H. Beatty, M.P.P., into the Herby Club, musically performed. Other popular numbers were given, and a quartette from Seattle and Tacoma as a complement to their hosts, sang "Come to Victoria." Earlier in the proceedings, community singing was given a place, with R. R. Webb leading.

All forenoon the visitors were arriving by different steamers until the Princess Kathleen docked with the main body. In honor of the event, the steamer was gaily decorated with flags. The party marched directly to the banquet room in the hotel, singing "Victoria, Here We Come." The visitors were driven about the city by the local club members during the day.

## SUNDAY CONCERT IN BEACON HILL

The band of the Fifth B.C. Coast Brigade, Canadian Artillery, will play in Beacon Hill Park Sunday afternoon by kind permission of Lieut.-Col. T. B. Monk and officers. Bandmaster C. A. Raine will conduct the band through the following programme: march, "The Vanished Army" (Alford); overture, "The Enchanted Flute" (Mozart); selection, "Torquato Tasso" (Donizetti); meditation "Ave Maria" (Gounod); march (American) "Samba's Wedding" (Hiram Eden). Interval. March, "Elephant" (J. Ord Hume); march, "Bells of Ouseley" (J. Ord Hume); "In a Monastery Garden" (Ketyby); selection, "No. No, Nanette" (Vincent Youmans); "Humoresque" (Dvorak); hymn (various); "Eventide" (Rimmer).

## Memorial at Thiepval

CANADIAN radio listeners and the delegation to the Imperial Economic Conference at Ottawa were able to join by radio the reverent gathering which marked the unveiling recently of the great memorial to the British war dead on the Somme, when the Prince of Wales and President Lebrun of France delivered dedicatory speeches. Above is an excellent view of the memorial.

## SOCIAL SERVICE FILLS BIG NEED

Tag Day Tomorrow Appealing for Funds to Further Organization's Good Work

A tag day will be held in the city today under the auspices of the Social Service League, the energies of which are chiefly directed to helping families, providing the necessities of life to those who have been deprived of them, uplifting the standard of living, finding relief employment, furnishing medical care where necessary, and the up-keep of the very successful Sunshine Camp at Saseen.

Organized in 1912, the Social Service League fills an important place among the welfare organizations of the city. Particularly has that been the case during the past two years. Sunshine Camp was one of its happy inspirations, and has proved a boon to mothers and children suffering from the lack of holidays and, in many instances, lack of sufficient rest and fresh air.

The league operates independent of either city or Province, and is maintained solely by voluntary contributions. The purpose of the tag day is to make the appeal for these contributions, and every member of the committee hopes that the citizens will respond as generously as possible.

Mrs. Walter Parry is convener. Taggers are urgently needed, and volunteers' names will be gladly received. Information may be sent to

the Social Service League room, 45 Arcade Building, or by telephone to Empire 4714. Headquarters for the taggers tomorrow will be at 621 Port Street.

## Nudists Fast at Oakalla Jail as Followers Leave

VANCOUVER, Aug. 18 (CP).—About half of the 348 Doukhobors held in Oakalla jail under sentence of three years' imprisonment, for participating in nude demonstrations in the Nelson district early in the year, were on a two-day fast this week. The fast was presumably in sympathy with twenty of their sect who were taken last week to the prison colony being prepared on Pier Island by the Federal Government.

"It was not a hunger strike," said a prison official. "They just did without food for two days, then started to eat again. We believe it was in sympathy with those who were taken away, but you can never tell; they give no explanations for their actions."

Of the 348 Doukhobors in Oakalla, 109 are women. Eventually all will be removed to the island colony to serve their sentences.

## DIES FROM INJURY

VANCOUVER, Aug. 18.—Injured about the head in a fall downstairs at Dunlevy and Hastings Street, on August 9, Jack McPhee, of West Eighth, died early this morning in hospital. He suffered a fractured skull.

## Bond Market Is Improving, Says Hon. J. W. Jones

BRITISH Columbia has no immediate intention of borrowing, on a second issue of treasury certificates, in the New York market, it was stated yesterday by Hon. J. W. Jones, in response to questions.

When the Province sold its short-term issue of two-year debentures recently in New York at 108 1/2 it also gave an option to the purchasing syndicate on a second loan for \$2,000,000 three-year certificates. If this money should be required, Mr. Jones said bidding on British Columbia securities is brisk and that in the face of an improving market the Province would make no speedy decision in regard to the issue of three-year-term securities.

## ENUMERATORS START TODAY

Registration of Saanich Voters Gets Under Way This Morning

Provincial enumerators, faced with the task of compiling a new Provincial voters' list in Saanich, will swing into action today, under the direction of W. O. Wallace and deputy registration officials. Mr. Wallace has opened an office at 1203 Broad Street, where eligible voters of Saanich may secure information or register in person, if they do not wish to wait for the arrival of the enumerator in their district.

The enumerators taking the field today will be distributed one to each section of the various wards, with from two to three enumerators in some wards, depending on their population. Those eligible to vote are British subjects by birth, or naturalization, of the full age of twenty-one years, and resident in British Columbia six months and in the locality for one month. Registration, whether effected at home through the enumerators, or on application at the downtown office, is free. Enumerators will be prepared to prove their authority.

Officials in charge of the registration got their plans in working order yesterday, and will start this morning on the actual compilation of the new list. They include W. O. Wallace, W. H. Carr, T. W. Palmer and David Ramsay, deputy registrars.

## ELECTION OFFICER DIES

TORONTO, Aug. 18.—Allan Dymond, for the past seven years chief electoral officer for Ontario, died after a brief illness, here, today. For the last forty-two years, Mr. Dymond had been chief clerk of the Ontario Legislature.

## WOULD LINK UP EMPIRE RADIO

Subcommittee Recommends Closer Relationship With Controlling Bodies

OTTAWA, Aug. 18 (CP).—Closer liaison between the responsible bodies controlling radio in all parts of the Commonwealth is recommended in the report of the Imperial Conference subcommittee on films and radio.

The conference expressed its belief that such liaison "would assist towards the ideal of insuring accessibility to the whole Commonwealth of all the material and programmes of general interest."

## AID FILM INDUSTRY

In connection with films, the subcommittee noted "it has been suggested to us that prior developments and financial arrangements give an advantage to other productions, and encouragement is required to insure the development of the film industry throughout the Commonwealth."

"It has been suggested that aid might be given to the distribution of Commonwealth films, and at the same time revenue might be derived by the imposition, in addition to the footage customs duties now in force, of a special levy upon the value of all foreign films displayed, based on the value of such films for renting purposes, while Commonwealth films are exempt," the report says. "We appreciate that in practice the collection of the levy could not be made at the moment of entry because the actual value on which it should be assessed might not be ascertainable until renting contracts are made."

## MINIMUM CENSORSHIP

With regard to censorship, the conference regards it "in the interests of the distribution of Commonwealth films, and in the interests of producers of those films, that they should be acquainted with the conditions of censorship obtaining in each part, and that films distributed in the different parts should be of a character and form requiring the minimum of censorship and consequent mutilation."

The subcommittee agreed to refer to the committee on methods of economic co-operation for consideration a proposal that those Dominions which levy a duty on films should consider the possibility of admitting a single positive of each Commonwealth film, without paying of duty, under bond for exportation within thirty days. This would void the payment of duty upon those films which prove to be unsuitable for display.

## PIONEER PASTOR DIES

OTTAWA, Aug. 18 (CP).—Major the Rev. H. I. Horsey, sixty-five, minister of Zion United Church, and one of the oldest clergymen in point of service in the Capital, died this morning. He had been ill only a few days. Major Horsey had been pastor of Zion Church for thirty-six years.

## CITY WINS CONVENTION

Canadian Legion to Convene Here in 1933—Pension Problems Discussed

REVELSTOKE, Aug. 18.—At the conclusion of a session devoted almost entirely to the consideration of reports and recommendations relative to administration changes, the Canadian Legion convention decided to hold its 1933 meeting at Victoria.

An impressive memorial service was held this afternoon before the Cenotaph in Victoria Square when the entire convention paraded to honor departed comrades. Wreaths were placed on behalf of the Dominion Command, the Provincial Command, the Women's Auxiliary and the Revelstoke Branch.

**LIFE MEMBERSHIP**  
Thursday evening delegates were entertained at a civic banquet. Speakers were Alderman S. F. Cranston, Revelstoke; Col. W. W. Foster, D.S.O., Vancouver; Dr. A. L. Jones, Revelstoke; T. A. Barnard, Nanaimo; Capt. James Robertson, Vancouver; Mayor S. Needham; W. McKinstry, Vancouver; Mrs. T. A. Barnard, Nanaimo; T. Aldworth, Armstrong; M. Moore, Revelstoke. A feature of this gathering was the presentation to Dr. J. H. Hamilton, of the Revelstoke Branch, of a life membership in the Legion. The presentation was made by President T. A. Barnard.

Following the addresses the convention settled down to business with the presentation of the annual reports. President Barnard paid particular attention to certain phases of pension legislation and unemployment, and indicated that these matters would come large in the deliberations of the convention.

Colonel Foster addressed the activities of the Dominion Command, also laying stress on pension legislation and the efforts of the Dominion body to co-operate with the Federal Government in studying the whole situation. A committee had been appointed, composed of representatives from the Dominion Command, to co-operate with the Government, to commence work immediately. It was hoped that the result would be the elimination of some of the objectionable features of the present act.

## RAIN HALTS NET TOURNAMENT

U.S. Women's Meet Interrupted by Weather—Helen Jacobs in Semis

FOREST HILLS, N.Y., Aug. 18.—Just when the grandstand tennis apparently were on the verge of seeing something exciting after three days of pretty dull going in the women's National tennis championships, it was to rain today and postpone any climax there may be until tomorrow.

When the big drops began to fall, the crowd was straining forward to watch a black-haired little fighter from Los Angeles, Caroline Babcock, play rings around Mrs. Lawrence Harper, the tournament's second seeded star.

Playing only her third season of big-time tennis, the twenty-year-old Coast girl brought forth a dazzling display of strokes to crush her opponent, 6-3, in the initial set, and apparently was on her way to a sensational victory when she was interrupted. Officials postponed the completion of the quarter-finals until tomorrow, automatically planting the finals on Sunday.

Prior to the Harper-Babcock affair, Helen Jacobs had forged on into the semi-final round with a hard-earned victory over Mrs. John Van Ryn by scores of 2-6, 6-3, 6-1.

## JUNIOR TENNIS DRAWS BIG LIST

DUNCAN, Aug. 18.—Entries are coming in well for the Junior open tournament of the Duncan Tennis Club, which begins next Tuesday. This tournament carries the Junior championships of Vancouver Island in boys' and girls' singles.

Some of the entries received are: Colin Milne, Canadian Junior champion; Nesbitt McGregor, A. Verley, K. Milligan, Norah Robinson and Susan Hadden and Susan Phillips, Peggy Horne and Pat Rafferty, of Victoria; Ken Clegg, Seattle city junior champion; H. Baumgartner, of Vancouver; J. D. Dexter, Seattle; R. Clark, Interior junior champion; N. Dean and L. Mackay, of Kelowna and Vernon, numerous entries from Nanaimo, Parksville and other Island points.

Locally, Gordon Whan will defend his under-fourteen championship, and Susan Hadden and Kathleen Staples will try to hold in the district the girls under fourteen cup, won last year by Vivienne Yale.

Entries close on Saturday with N. R. Staples, secretary, and play will commence at 10 a.m. Tuesday.

## City & District

**Will Address Club—His Excellency the Governor-General of Canada, Earl Beaulieu, will address a luncheon of the Canadian Club here at noon on Wednesday, August 31, it was announced yesterday by John Cochran, chairman of the club's speakers committee.**

**Receive Report.**—The July report of activities of the Sanction Police Department submitted by Chief Allan Rankin to the municipal police commission last night showed fines and tax collections totaled \$600.25 for the month, while seventy-two complaints and ten motor accidents were reported.

**Burnaby to Proceed.**—The District of Burnaby was notified by the Provincial Government yesterday that it might proceed with the unexpended allocation under the 1931 Relief Act until the end of September for the completion of certain sewer and other works. The municipality will not be relieved of paying its share of the cost eventually, but the necessary money will be advanced to enable the work to go ahead, it was unofficially intimated.

**Express Thanks.**—Letters of appreciation from Lionel E. Taylor, of Wrentham Lily Farm, and Frank H. Allwood, secretary of the Australian cricket tour, were presented to Chief of Police Allan Rankin and his men for controlling a traffic jam at the former centre, and at the cricket matches this week, were received and filed at a meeting of the Sanction Police Commission last night.

**May Appoint Director.**—Consideration was given by the unemployment committee of the Cabinet yesterday to the question of appointing a director of relief in British Columbia from among its own officials who have been in charge of the work for the last two years. No immediate decision is expected, though the name of Major R. M. Taylor, engineer in charge of relief camps, has been unofficially mentioned as a possible choice for the position, if the plan is carried into effect.

**Await Report.**—Pending report by J. A. Thomas, British Columbia fire marshal, on circumstances leading up to the disastrous fire at Nanaimo which took a toll of four business premises, the Attorney General's Department will not move in the matter, it was stated yesterday at the Legislative Buildings.

Mr. Thomas' report is expected shortly, when the facts will be reviewed by officials of the department. This, it was explained, does not block municipal officials at Nanaimo from taking any steps they wish in the matter through normal court process, if this course should be justified.

**Invaded by Pests.**—Despite the assurance of entomological experts that well-bred earwigs will not eat paper, Charles F. Banfield, the King's Printer, was apprehensive of the insect army advancing on him across the desk, after emerging from a letter rack. Mr. Banfield recently killed the earwig, with an eye on paper scraps in his keeping, running into considerable sums of money. A few weeks ago the earwig congregated at an old shed beside the printer and gave every evidence of settling down for life.

Mr. Banfield sent out a call for the Elks, a bucket-brand brigade to assist him in the uneven warfare.

**Retains Control.**—North Vancouver District will continue under its own steam, having effected satisfactory adjustment of its financial problems with the banks, after conferences with the Provincial Government, it was stated yesterday by Hon. J. W. Jones, Minister of Finance. No direct financial aid will be extended by the Government to the area, but the usual contribution to relief undertakings under existing legislation, it was made clear.

Reverend J. M. Bryan and Engineer J. E. Milne, in interviews with officials of the Government, have asked consideration of a plan to develop a residential area in the municipality as a relief undertaking. Further particulars have been requested.

## Fog Causes Delay In Flight Plans

BARRE, Vt., Aug. 18.—Clyde A. Lee, of Oshkosh, Wis., said tonight reports of fog off Newfoundland had caused him to postpone for at least twenty-four hours the start of his projected flight to Oslo, Norway. Lee originally had planned to take off from the Montpelier-Barre airport tomorrow morning for Harbor Grace, Nfld., on the first leg of the flight.

## MAYOR WALKER WINS SKIRMISH

Secures Order Requiring Governor to Defend Right to Continue Hearing

By WALTER T. BROWN  
Associated Press Staff Writer.

ALBANY, N.Y., Aug. 18.—Mayor James Walker, of New York, today carried his fight against ouster proceedings into the courts, obtaining an order requiring Governor Franklin D. Roosevelt to defend his right to continue a hearing and pass upon the fitness of Mr. Walker to retain his \$40,000 a year position.

As John J. Curtin, chief counsel for Walker, argued before Roosevelt in Albany, for a dismissal of the fifteen ouster charges against his client, a legal aide in Kingston obtained a Supreme Court order requiring the Governor to show cause why his holds should not be tied by permanent writ of prohibition.

The Governor was enjoined from ruling on Walker until the court tested his authority.

The court order was issued by Supreme Court Justice John T. Loughran, who made it returnable tomorrow before Justice Ellis J. Staley in Albany. Mr. Walker was represented at Kingston by John J. Glynn, nephew of former Governor Alfred E. Smith.

**COVERS TEN CHARGES**  
Curtin, talking for four hours, covered ten of the charges. He agreed to dispose of the remaining five within an hour and a half tomorrow.

In his petition challenging the Governor's power, Walker said he had been denied his constitutional rights before the Hofstadter legislative committee and by Mr. Roosevelt.

The mayor argued that ten of the charges referred to his first administration and were outdated.

Justice Staley also will be called upon tomorrow to pass upon a similar restraining order sought by George Donnelly, secretary of the Bronx Chamber of Commerce, "Donnelly" contended Mr. Roosevelt's power violated the "home rule" provisions of the state constitution.

## CAFEMEN WILL BATTLE ELKS

Second and Third Place to Meet in Local Ball League This Evening

With a victory needed to keep them in the running for first position, Green Mill will be out with its regular line-up this evening, when it will clash with the third-place Elks in the Senior Amateur Baseball League at the Royal Athletic Park at 6:15 o'clock.

The cafemen have two more games left to complete their schedule and must win both to come out on top and thus gain a bye in the league play-offs.

At present, Sons of Canada are leading the parade by two full games. It all depends on how Green Mill comes out against the Elks and Tullimans regarding the Canadian's chances of gaining a bye in the play-offs.

Bill Brousseau or Bill Holmes will do the twirling for Green Mill this evening, while the Elks will be behind the plate, while Jim Kennedy is expected to go to the hitlock for the Elks. Tommy Bowden will command the Elks' battery. The remainder of the squads will be the same and a close game should be the result.

On regularly subsidized flights of British airplanes 653,000 miles were flown on the services to India and Central Africa.

## Von Gronau Is Greeted By Ladies

PRINCE RUPERT, Aug. 18 (CP).—Gallantry adorned Capt. Wolfgang von Gronau as he stepped from his big flying boat on arrival here from Lac la Biche, Alta., and to the ladies he paid his compliments. Departure? Ah, the welcome to the British Columbia coastal city was too sincere, too great to think about leaving right away. And the cheers of scores of women who gathered at Seal Cove as the flying boat skimmed across the water to a halt was too much for the German flyer to overlook.

The Mill Wharf was crowded as Van Gronau and his companions alighted from their plane to a log boom and stepped carefully across the wharf. Women crowded around him as he walked along the pier.

"And in the presence of ladies we should not talk about departure. With such a welcome we have no other choice but to remain here a few days," was the flyer's remark.

### Ladysmith

Mr. and Mrs. John Clarkson, of Vancouver, are visiting Mrs. M. Walker, of Fourth Avenue, for a few days.

A large number of her friends, fellow members of the Pythian Sisters' local lodge, paid a surprise visit to Mrs. John Harris, of High Street, upon the occasion of her seventy-sixth birthday. Congratulations and bouquets were showered upon the hostess. Following the cards, which were won by Mrs. M. A. H. Reid and Mrs. J. Currie, delightful refreshments were served, and a happy evening closed with the singing of "She's a Jolly Good Fellow."

Mr. and Mrs. I. Nash have returned home after visiting with their daughter for two months at Prince George.

Mr. and Mrs. A. T. Searle and their daughter, of Courtenay, visited with old friends of Ladysmith on their homeward journey after a tour of the Sound Cities.

Mrs. O. Ledingham, of Vancouver, is visiting her parents, Mr. and Mrs. J. Watson, of Methuen Street, for a few days.

Mr. and Mrs. J. Greenhorn have returned from Vancouver, after a brief holiday in the Terminal city and their daughter, Miss Jean Greenhorn.

Mrs. John Ferguson, with her children, Ian and Grace, of Courtenay, are visiting with Mrs. Ferguson's father and sister, Mr. and Miss Bailey.

Miss F. Davis and Miss K. Docherty are in Victoria, official delegates to the Primrose Lodge, A.O.F., convention in that city. While in Victoria they will be the guests of Mr. and Mrs. J. Manson and Mr. and Mrs. F. Docherty.

Mr. John Davis returned to Ladysmith, after sojourning for a few weeks in Vancouver.

## What One Girl Wore

By BETTY BROWNLEE

Many of us postpone our vacations to the end of the Summer—and wisely, too. For we come back when the hot weather is almost gone and we're feeling all fresh and ready to meet the new season.

But it's difficult to decide upon clothes for this late vacation period. It's wise, therefore, when considering the clothes problem for this postponed vacation, to decide to invest in things that can be used late into the Fall. There are many frocks being displayed now—sheer dark frocks, and subdued prints that will serve us for afternoon wear right through September and October.

You can even be practical about beach fashions. For instance, we have sketched on this page today a stunning pajama ensemble that you can wear with perfect confidence over your bathing suit and that you will find comfortable, attractive and most useful for lounging in when you get home. It is of blue jersey and features a band of red and white stripes above the fitted waistline. A flattering cowl necklines and short sleeves are flattering. Red and white buttons decorate the sleeves.

## IRISH FISHING ATTACKED

Free State fishermen in the vicinity of Lough Foyle are aroused over a mysterious attack by a large motorboat which suddenly appeared and tore away the nets of the Free State crews in the lake. The attack was made off Drum, about fourteen miles from Derry and ten miles from the Free State border, where eight boats were fishing. None of the crews saw the approach of the motorboat, which, it is stated, had no navigation lights. Two of the boats to which a net was attached were dragged along by the motorboat. One of the crews cut away their net, but the other, unable to do so as quickly, had their craft doled with water. Ultimately they managed to disconnect the net, and the motorboat disappeared.

## Hairline Is Revealed in Newest Coiffures

Care Should Be Taken to See That All Dirt Is Removed From the Forehead When Cleansing the Face

By GLADYS GLAD

"America's Most Famous Beauty."

Fresh from Paris, the world-famous fashion centre, come the tidings that with the exception of banded hair styles, the newest and smartest coiffures are all designed to reveal the hairline. And that may be good news to a great many people. But it also brings its problems, so don't get feeling too gay about it.

There are few things, in my opinion, quite so distressing as a dirty hairline. It's enough to rob even the choicest coiffure of its attractiveness. Yet one sees grimy hairlines quite frequently, especially during

the summer time. And there are several reasons for this fact.

### REMOVE POWDER

In the first place, during the hot weather, the oil and perspiration glands become more active. As a consequence, dirt and grime accumulate more rapidly on the scalp and around the hairline. In addition, particles of powder from frequent powder applications are inclined to bit of it does get into the hair

### BAND THE HAIR BACK

Before cleansing the face, the hair should always be banded back with a strip of gauze or some like medium. Then there is not much danger of any soap getting into the hair. And even if, occasionally, a

This, of course, would not be apparent if women cleansed their faces properly. But many girls are so afraid of getting soap into their tresses that they stop their cleansing just below the hairline. Consequently, they fail to remove the grimy accumulations.

It is a good plan to brush the hair up and back from the hairline after the cleansing and before making-up the hairline clean, and enable the coiffure to set in place. This will tend to do away with the dirt and grime that may have settled there, attractive.

### DROWNS IN FRASER

NEW WESTMINSTER, Aug. 18.—Police are dragging the Fraser River for the body of Edmund Martin, eight, son of A. Martin, Seventh Avenue, New Westminster, who was drowned early this afternoon. He and two other boys were playing on a float on the North Arm at the foot of Eighteenth Street when he fell off and was carried into deep water by the current.

Agitation in New Zealand may result in the opening of the trout fishing season on November 1 instead of October 1, so as to give fish a chance to develop greater size.

## THE LUCKY LAWRENCES

By KATHLEEN NORRIS

### CHAPTER XIII

Almost every week-end was spent at the ranch in Los Gatos now and between the Mondays and Fridays Gail lived in but a dreamy half-consciousness of what went on at home. Her thoughts were always of what she must wear next Saturday; her every-day appearance was newly important too. For the women of Van's set had taken her up and when the Chippes were back at home, as they frequently were in midweek, Mary Spence or Lucia would come to Clipperville to stay with Lenore, and they would all struggle into the library for the dull forenoon, to try to coax Gail to come off with them to a country club lunch.

She had always taken her vacation in August, usually spending it restfully at home, doing the mending, darning, straightening of books, changing of domestic arrangements for which the year never left time. But this year she took it in successive Saturdays and Sundays.

Life at this accelerated pace fairly burned her up. The new pleasures enchanted her, but she never forgot leaving her always straining for more—which indeed was the position of them all.

They went everywhere, anywhere, they did anything and everything that might promise fun. Gail was surprised to discover what they thought fun and what bored them. Breakfast on the Macleish's yacht for example; life on the Macleish's yacht had nothing to do with sailing or the water. The yacht might as well have been moored ten feet underground in a coal mine for all its gay party ever saw of the sea. Yet there was something distinguished about being asked to spend a week-end on a real yacht!

Every one slept on the Lazy Lady and breakfasted under an awning, in pajamas, about eleven. Then they all played bridge, even Gail, for her home game was rapidly developing under the sting of losing a half-cent a point. She bet that much and Van carried the remaining four and a half cents; Gail hated to have him lose money on her game, but he would have it that way.

A sandwich lunch was served in the cabin and after that every one disappeared for a while. After dinner, beautifully frocked and groomed, they settled down eagerly like a flock of vultures to the green-topped tables again. But visiting on the Macleish's yacht was not merely a matter of the hours one spent on it of course. The gaily spread far ahead of it and far behind it. Gail saw her name in the Clipperville Challenge more than once during this amazing Summer, listed among the guests at affairs whose distinction a few months back was beyond her wildest dreams.

She had a feverish feeling sometimes of having lost. Edith, lost Phil and Sam and Ariel, lost touch with her work at the library and her duties at home; one could not live two lives, after all, and Van's very exactions were a delight, an answer to her wild young ardent prayers of last Spring. Nothing mattered but that she should please him, should keep close to him. She grew wittier, quicker, gayer as the weeks went by; their talk together was merely a quick cross-fire of repartee.

Fun at the time. But it left her little to remember.

One night in late August she and Van walked home from a movie in Clipperville. The night was insufficiently hot.

"Where?" That was frightful," Gail breathed, turning her bare head up to the stars. Her arms were bare, her throat bare, her thin dress was brief and still she felt smothered.

"This is a snorter!" Van commented. "Los Gatos tomorrow, hey? And into the pool. How about ice cream at Dobbins'?"

They sat at the counter and had grape juice on chopped ice. All Clipperville came in and out of Dobbins' on a hot Summer evening and Gail kept wheeling about on her high stool to greet library acquaintances and neighbors and friends.

Ariel came in with the regular high school group, girls in white middie blouses with long scarlet ties, grinning boys in sleeveless jersey sweaters.

"Take our places," Gail said getting down; "we're done!"

She walked along beside Van silently in the street. The man kept up his regular stream of chatter for a minute; somehow it jarred tonight. Gail broke across it suddenly.

"The reason I wanted to come away was—my brother Phil was in Dobbins' there."

"Your brother Phil was?"

"Yes. Way over in the corner, in one of the twosomes."

"Why didn't we yell at him?" Van asked slyly.

She had to have sympathy; she had to test him. With a sudden letting down of the bars she said, "Because his girl was with him."

"And don't you like her?" Van demanded with his delighted air of discovering something amusing.

"I despise her!" Gail answered somberly.

"Not really?" he exclaimed.

"She's not a girl, really, and it's very serious," Gail said determined to sober him. "She's a divorced woman and she has three little boys."

"Oh, I love it!" Van said with relief. "Phil! Old soberides!"

"Van, how can you say so?" Gail reproached him, hurt. "She's a terrible girl; she comes from Thomas Street Hill; she was one of the Wisers."

"Oh, I think it's perfectly grand!" Van said with his raw joyous laugh. "Think of the trouble and expense saved—his family all ready-made!"

"No, honestly, Van," Gail persisted, not to be won. "It would be absolutely terrible for us all to have Phil marry Lily Cass!"

"She sounds just my very ideal," Van chuckled.

But suddenly perceiving that she was not amused and that a genuine mood of anger and disappointment was keeping her silent, he changed his tone and said rallying, lightly, "Why, what do you care who your brother marries? You don't have to marry her, it's his business."

"I suppose so," Gail conceded after a moment, wearily.

The car was parked a hundred feet from the silent gate. Gail went to the fence that had once been their meadow fence and leaned on the bars and stared into the night that was now lighted by the moon.

"Phil's marrying would simply wreck our home," Gail said reverting to the topic, deliberately, desperately.

"Oh, forget it! He won't marry her," Van assured her easily.

"Think," she began a little thickly. "I think what worries me is Ariel. She is giving me a good deal of anxiety. She is running around with that Buddy Raich crowd of course; they may be a perfectly decent crowd underneath."

"Why, she's nothing but a school dissembler," Van said in distaste and displeasure.

"Well, she's not such a school child but what she lets Buddy Raich take her out in his roadster. I was wondering," she added tentatively, "what you would think I ought to do, Van?"

He was interested now but in an angry, reluctant sort of way. He said quickly, "For heaven's sake, what should I know about it? It seems to me if she's such a fool, she likes to run around with a bouncer like that, why, let her do it!"

"But you don't understand, Van," Gail said patiently. "She's only seventeen, she won't be eighteen until next Christmas."

"That wasn't no hindrance to the late Miss Juliet Capulet!" Van reminded her joyously.

Gail laughed faintly and was silent. They hung on the fence, staring off over the haycocks, dimly gold in moonlight, to the shimmer of the marshes and the rise of the mountains beyond.

"I'll come for you early tomorrow," Van presently said. "How's nine o'clock? That gets us to the ranch at noon, easy."

They were standing close together at the old fence rail; he might as well have put his arm about her. But he never attempted that sort of thing; Gail wondered sometimes if it were some queer lack in her that prevented him, or some missing quality in him.

Both, perhaps. The mental element in their relationship, the constant joking and laughing, were sort of safeguard. They were too critical, too witty, to descend contentedly to kisses and embraces in the sleepy darkness of the parked car on some lonely Summer road, as other men and girls did. There was not that sort of relationship.

"Oh, by the way!" Van said in parting. "Mother'll be here tomorrow! Some one's driving her up from Santa Barbara. She's coming out to read the riot act to me and to drag me home."

"Oh, really?" Her voice sounded flat and tame in the darkness.

"Well, sooner or later, I suppose. She wrote me something about coaching—digging up in physics and psychology—so I can take the exams in September. I don't know what it's all about but it may save me redoubling on my sophomore year."

Gail, going into the house, determined that she would not go down to Los Gatos at all tomorrow, and felt a great relief in the thought. The week-end of Mrs. Murchison's arrival would be a very good week-end upon which to absent herself; it would be more dignified, it would show a certain niceness. Then, if they wanted her, they could make a special overture next week. Edith highly disapproved this idea.

"Why, you're crazy!" she said.

"Oh, I don't know," Gail answered dreadingly, undressing in Edith's room. "It's always the same thing. It doesn't get you anywhere!"

"You have a lot of fun," Edith said stanchly.

Gail wandered away to her own room, returned in pajamas, brushing her hair.

"Phil was at Dobbins' tonight," she said, "with Lily."

"Oh, Gail!" Edith wailed.

"I know. It's awful."

"He's crazy," the younger sister said darkly. They brooded upon it a moment in silence. Then Edith, brightening, added suddenly, "Gail, while you were out I thought of why Van's mother is coming to California! She's coming to see you, you idiot! It's as plain as anything could be."

Gail smiled without answering. A few weeks ago she would have jumped at this conclusion; she wished she might do so now. But she felt tired and blue tonight; discouraged about Phil, about Ariel, about her own hopes and plans concerning Van. A sense of futility, of helplessness, was heavy upon her as she went slowly downstairs and above all, she was aware of the kitchen, pressing her white linen.

### A Suggestion to the Deaf

Mr. S., a prominent business man, became almost totally deaf following an attack of influenza. He tried several devices without result, and finally secured an Oravox Ear Phone. After wearing it for a few weeks he wrote us, in part, as follows:

"What a joy, after two months of straining, of isolation in a world full of entertaining and essential conversation, to regain my hearing! Talking pictures, lectures and church services became matter course again. I'm not deaf any more! As a deaf person who sincerely hopes to help others like himself, I urge all those whose hearing is affected to see and test the Oravox. It may prove the greatest single blessing they have ever known."

Come to our Optical Department and let our specialist prove to you the efficiency of the Oravox. There is no obligation.

# COBS WIN ANOTHER MARATHON GAME FROM BRAVES

## Harold Pretty Leads Field With Card of 74 for Junior Crown

Uplands Youngster Holds One-Stroke Margin at Half-Way Mark in City Title Meet at Oak Bay Course—Ryley Is Second—Play Today

Breezing around the sporting Oak Bay course in 74, Harold Pretty, young shotmaker from the Uplands Club, assumed the role of pacesetter in the first round of the Victoria City Junior championship yesterday by heading a field of fifty-three youngsters by a one stroke. Pretty was in great form and unhooked a fine bag of shots to register his score. Scores of 85 and better qualified for the second and final eighteen holes of medal play today. The competitor with the best gross card for the thirty-six holes will be named champion and will receive the Carmichael Cup, emblematic of the crown.

Right on the heels of Pretty came another youngster named R. Ryley, who shot brilliant golf the entire journey to check home with a card of 75. Ken Lawson, flashy youngster from Uplands, and one of the favorites, was third with a 76, while Carlton Allen, Oak Bay, was fourth with a 77. Eric Wright, Macaulay Point contender, was fifth with a 78. The remainder of the field was well bunched.

Scores follow:  
Harold Pretty 74  
R. Ryley 75

## REG. CORFIELD ADVANCES IN TENNIS MEET

Defeats A. M. D. Fairbairn After Hard Match in Singles at Willows

Reg Corfield advanced to the next round of the men's singles championship of the Victoria Lawn Tennis Club yesterday evening by scoring a fine victory over A. M. D. Fairbairn after three sets. Corfield staged a great rally to come from behind to win the first set after trailing, 5-1, at one point. He finally won the set at 7-5, but lost the second session, 6-0. Corfield waited through to take the extra set at 6-1 for the match.

Mildred Philpotts took Peggy Jackson into camp in the women's singles after three hard sets, 6-4, 3-6, 6-2. The remainder of the matches were in the men's and all finished in straight sets. Play will continue this evening with some good fixtures on the slate.

Yesterday's results and today's draw follow:

**Men's Singles**  
Reg Corfield defeated A. M. D. Fairbairn, 7-5, 6-1, 6-1.

**Women's Singles**  
Mildred Philpotts defeated Peggy Jackson, 6-4, 3-6, 6-2.

**Men's Doubles**  
Gordon and McCullum defeated Backer and G. W. Phillips, 6-3, 6-0.

Dunbar and Flett defeated Ryall and Huxtable, 7-5, 6-6.

Campbell and Radford defeated Flett and Dunbar, 6-4, 6-4.

Garrett and Fairbairn defeated Husband and Parker, 6-3, 6-1.

**DRAW FOR TODAY**  
4:00—Helen Campbell vs. Maxine Ewart.  
5:00—Campbell vs. Hocking; Gordon vs. Corfield; May Campbell vs. Mildred Philpotts.  
6:00—Mrs. Wilson and May Campbell vs. Misses Philpotts and Ewart; Mrs. Phillips and Peggy Jackson vs. Helen and Joan Campbell; Gordon and McCullum vs. Radford and Campbell; Corfield and Hocking vs. Garrett and Fairbairn.

**TOWNSEND-STEELE BOUT IS POSTPONED UNTIL AUGUST 26**

SEATTLE, Aug. 18.—The bout between Freddie Steele, Tacoma welterweight, and Billy Townsend, Vancouver, B.C., mittman, was postponed today from August 23 to August 26, to give Townsend extra days to train here because he was delayed in leaving New York.

A message from Townsend and his manager said they would fly West, arriving here Friday afternoon. Townsend has been fighting in New York, in recent weeks.

## PARELLI PINS ERNIE ARTHUR IN 5TH ROUND

Italian Uses Old Trick in Gaining Deciding Fall in Main Wrestling Bout

WAINO KETONEN AND JAPANESE IN DRAW

Smashing his opponent in the midsection and then using a strong body press, Joe Parelli, Italian middleweight, pinned Ernie Arthur, Victoria, with the deciding fall forty-five seconds after the fifth round started, to win the main event on last night's wrestling card at the Tillicum gymnasium. Testura Higami, Japan, and Waino Ketonen, Los Angeles, grappled to a draw in the five-round semi-final, each gaining a fall, while Fat Griffin took a one-fall decision from Johnny Masters in the curtain-raiser.

Parelli resorted to an old wrestling trick in gaining the winning fall. Arthur had him floored near the ropes and the Italian tapped him on the back three times as if it was the referee, signifying that Arthur had Parelli on the mat. Arthur jumped up and Parelli was after him like a flash, smashed him in the stomach and then pinned him as the crowd roared its disapproval.

The first and second rounds were fast with Arthur having the edge. Parelli got the first fall in the third with a body press after he landed several blows, which looked below the belt to the fans, and the Italian was greeted with boos as he walked to his corner. Apparently mad at the treatment Parelli had given him, Arthur pounded the Italian around the ring with headlocks, slams and then used a body press to even the count after fifty seconds of the fourth.

**KETONEN CLEVER**

The semi-final was comparatively slow to the main event. Ketonen was far too strong for Higami and tossed him around like a rubber ball. The Finn showed fine form and is one of the cleverest middleweights to come to these parts in recent months. He broke his opponent's holds with ease, and really was never extended, despite the fact that the referee was a draw.

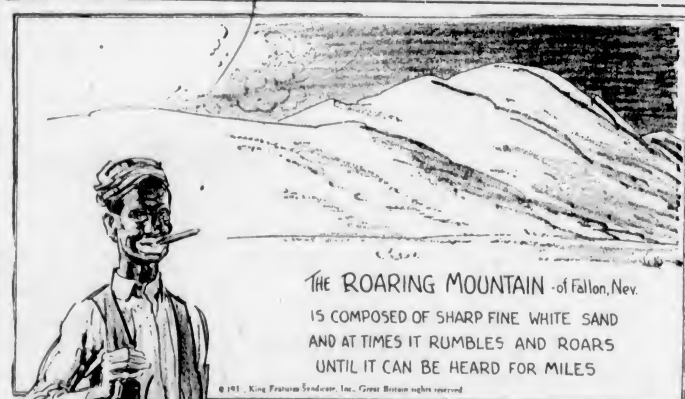

Ketonen took the first fall in the fourth with a Boston crab after one minute, and Higami resorted to ju-jitsu methods to win the last round after one minute and fifteen seconds.

**CIVIC STAFF WINS SOFTBALL TROPHY**

The Civic Staff softball team won the runners-up cup in the Sp cup in the showing their country made in recent Olympic Games in Los Angeles, Viscount Acheson, executive officer of the British athletics, and his assistant, Even Hunter, arrived here today. They are on their way to Victoria and Vancouver, B.C., en route home.

## BELIEVE IT OR NOT

By Ripley

EXPLANATION FOR YESTERDAY'S RIPLEY CARTOON

An Olympic Fishing Championship—After the modern revival of the ancient Olympic Games, the second Olympiad was held in Paris in 1900. This Olympiad, which was entirely ignored by the local newspapers in Paris, was distinguished by the strange assortment of competitions which were then classified as "sports." Among the Olympic championships contested in 1900 we find such strange competitions as "Fireman's Drill," "Carrier Pigeon Flight," "Ballooning," etc. A Frenchman, whose name was not preserved for posterity, won an Olympic championship for angling for live fish in the River Seine, in 1900.

The Length of a Shave—The beard area of a man's face is approximately fifty square inches. A daily shave therefore covers an area of 265 x 50, or 13,250 square inches, equal to a strip one-half inch wide and considerably more than a half mile, in one year's time.

## An All-British Triumph

BRITISH make clean sweep of the 800-metre run. Thomas Hamilton, of Great Britain, set a new Olympic and world's record of 1 min. 49.8 secs. Alex Wilson, of Montreal (left), placed second, and Phil Edwards, also of Canada, ran third.

## B.C.F.A. to Suspend Local XI's if They Join Coast League

Players to Be Also Placed Beyond Pale if Victoria Soccer Teams Amalgamate With New Body, Officials Declare

VANCOUVER, Aug. 18.—Following a meeting of the British Columbia Football Association here tonight, the following statement was handed out by J. M. Richardson, secretary:

"At a meeting of the British Columbia Football Association, held here this evening, the rumor that certain soccer clubs in Victoria intended breaking away and affiliating with the Pacific Coast Football Association, was considered, and the provincial association felt that it should call to the attention of these clubs and their players the position in which they were placing themselves by affiliating with the P.C.F.A."

"The P.C.F.A. was formed by clubs which were suspended by the provincial association, when the question of professionalism among these clubs was under investigation by the latter body. If the Victoria clubs affiliate with the new body, the B.C.F.A. will be obliged to suspend them, together with their players."

"The Victoria officials should first consider seriously the advisability of making the move. Experience throughout the Dominion of Canada has shown that outlaw football has never been successful, and this fact has been pointed out by the Dominion Football Association, the Dominion of Canada and will lose their standing in organized soccer throughout the world, and their amateur status may be questioned by other lines of sport."

**FRED PERRY BEATEN IN HARD MATCH**

Last British Threat Eliminated at Newport by Davey Jones

NEWPORT, R.I., Aug. 18.—The last of the invading threats in the Newport Casino singles tennis tourney were wiped out today.

Most of the credit for turning back the visitors from abroad must be given to the low ranker, battling Davey Jones, of New York. This converted Columbia basketball player eliminated Fredrick J. Perry, of England, who, a year ago, was good enough to get into the Casino finals.

By giving himself fight talks, most of which were overheard by an appreciative gallery, Jones pulled himself together at the crucial points and forced Perry out of the competition with as pretty a display of hard driving tennis as the public has witnessed in many years. The scores were 6-4, 1-6, 6-3, 2-6, 6-4.

**SATOH ELIMINATED**  
Wilmer Allison, the Texas Davis Cup veteran, eliminated the mellow Jiro Satoh, Japan's outstanding player, in a five-setter, 1-6, 3-6, 6-2, 6-4, to go into the semi-finals against Gregory Mangin, of Newark, N.J.

The latter beat Jack Tidball, of Los Angeles, 6-4, 6-0, 4-6, 12-14, 9-7, a total of sixty-eight games that lasted almost four hours.

Ellsworth Vines, United States and Wimbledon champion and last year's U.S. Open winner, won his quarter-final play against John Van Ryn, of Philadelphia, 2-6, 6-1, 2-6, 6-3, 6-4.

Vines will oppose Jones tomorrow.

The invading element in the doubles play was also eliminated. George Lott and Frank Shields accounted for the British Davis Cup pair, Perry and Henry W. "Bunny" Austin, 6-4, 6-8, 6-4, 1-6, 6-4, and Sidney Wood, New York, and Lester Stiefen, Los Angeles, put out the Japs, Satoh and Takeo Kuwabara, 7-5, 4-6, 6-4, 6-4.

## Paavo Nurmi Will Run at Worcester Meet on Saturday

BOSTON, Aug. 18.—Karl A. Hill, of the Finnish-American Athletic League, today said Paavo Nurmi, famous Finnish distance runner, would perform at a post-Olympic track meet in Worcester, Mass., Saturday.

## PHIL EDWARDS EASY WINNER AT CHICAGO

Canadian Runner Captures 800-Metre Race—Metcalfe Takes Century

SOLDIERS FIELD, CHICAGO, Aug. 18.—Phil Edwards, bested runner from Hamilton, Ont., cantered home an easy winner of the 800-metre contest at the Exhibition Games staged here tonight. Battle of Extra Innings Wages at Wrigley Field as Chicago Emerges Victorious in Great Game in National League—Phils Take Pair From Cards—Giants Sweep Series With Reds

NATIONAL LEAGUE  
CHICAGO, Aug. 18.—The battle of extra innings waged at Wrigley Field today, with the Cubs once more defeating Boston Braves, 4 to 3, in fifteen innings of brilliant and erratic baseball.

As the Boston defence cracked for the sixth time in the long battle to permit English, who had singled, and Cuyler, who had sacrificed, to reach third and second on a wild throw with nobody out, Biggs Stephenson stepped to the plate and hit "socks" Seibold's first pitch to left field for the winning wallop of the game. The wild toss was made by Catcher Spohrer.

The overtime game extended the three-game series between the two clubs to forty-three innings, with the Cubs now two and a half games in front of the idle Pittsburgh Pirates in the National League race.

Guy Bush, the third Cub pitcher to take the mound today, gained the distinction of winning two games in as many days by pitching in just seven batters. He relieved Tinning and pitched one inning to win yesterday.

Summaries follow:  
Boston 3, Chicago 4.  
Batteries: Betts, Seibold and Spohrer; Root, Smith, Bush and Hartnett.

**Phils Capture Pair**  
ST. LOUIS, Aug. 18.—The Phillies defeated St. Louis Cardinals in both games of a double-header here today, winning the first game 10 to 4 and the second, 9 to 4.

Philadelphia batters brought in five runs off Stout and Carleton in the fifth inning to clinch the second game.

J. Elliott held the Cards to eight hits, while Stout and Carleton yielded twelve.

Phillies bunched four hits off "Dizzy" Dean in the third inning for five runs and gave a similar performance in the sixth frame, this time at the expense of Paul Derringer, to win the opening contest. The Cards found Roy Hansen for ten hits.

First game: R. H. E.  
Philadelphia 10 4 0  
St. Louis 4 10 2  
Batteries: Hansen and Todd; Dean, Derringer, Terwilliger and Mancuso, Gonzales.

Second game: R. H. E.  
Philadelphia 9 12 2  
St. Louis 4 9 0  
Batteries: J. Elliott and V. Davis; Stout, Carleton and Mancuso.

**Giants Make Sweep**  
CINCINNATI, Aug. 18.—New York Giants made a clean sweep of their first visit to Cincinnati by winning the final game of the Reds, 7 to 3, today.

A cluster of six hits, an error by Hendrick and a passed ball netted New York five runs and settled the game. Waite Hoyt lost control in the eighth and was lifted after he had walked two men and pitched two balls to a third, and Doll League finished.

New York 7, Cincinnati 3.  
Cincinnati 4, New York 7.  
Batteries: Kolp, Ogden, Frey, Hlochier and Lombardi.

**AMERICAN LEAGUE**  
BOSTON, Aug. 18.—Boston Red Sox took a sensational fifteen-inning game from the Browns, 7 to 6, today to gain the edge in the three-game series.

The deadlock was broken when Stump tripled off Hadley and after intentional passes were handed to Alexander and O'Brien, scored on Rhyme's clout to Schulte in deep left. St. Louis tied the score at two-all in the ninth and the first of the extra innings came in the eleventh, when both Levy and Marty McManus hit home.

In the fourteenth, combinations of hits and errors gave each team three runs. Burns, Brown's first baseman, made five hits and fielded sensationally.

Boston 7 12 6  
St. Louis 6 10 7  
Batteries: Baeholder, Hadley and O'Brien.

## Railly Removes Early Losses at New York Mart

NEW YORK, Aug. 18 (AP).—The stock market worked up somewhat in the last hour today, after receiving encouragement from wheat.

The list saw a rather feeble rally during the earlier hours of trading but rallied in the last hour to close with several gains of one to three points.

The late rise canceled most of an early afternoon sag of one to three points in several leaders. It started in the farm implements as the wheat market finally bulged up 1 1/2 cents a bushel, and, in the final dealings, rails were given a whirl.

Case of three points at a time, closed 3 1/4 higher. American Telephone likewise converted a two-point loss into a two-point gain. Among others finishing about two to three points higher, were U.S. Steel preferred and Tinkler Rolling Bearing. U.S. Steel common was up a fraction at the close. American Smelting dropped 1 3/4 and closed off 5 1/2 net. National Lead had one of its wide moves, losing about nine points.

Demand for both high-grade and speculative bonds continued, and prices moved to higher levels, despite realizing by traders who were unable to resist cashing in substantial profits.

The day's best gains were recorded by the railroads, a number of which advanced from one to three or more points.

The thinness of the market was shown when St. Louis Southwestern second 4's gained 20 points on the sale of seven bonds, and Tennessee Central 6's went up 15 points on a turnover of fourteen bonds.

The utilities backed and filled, with the majority retaining moderate gains. Issues of rubber companies and amusement corporations were in demand among the industrial.

Moderate gains were registered by all United States Government obligations. The Argentines advanced, as did loans of Australia and Japan. The Germans were irregular.

## WHEAT MOVES SHADE HIGHER

Futures Gain Fractions at Winnipeg After Weakness at Opening

WINNIPEG, Aug. 18 (CP).—Strength at Chicago brought wheat prices back from a weak start induced by hedging pressure here, and futures on the Grain Exchange here today closed fractionally better than the difference of the previous day.

October was 1-8 higher at 58 1/8; December remained unchanged at 59 1/2, and May closed at 64 1/4, up 1-4.

No export trade of importance was uncovered in the course of the morning, and overnight sales were very slim. No wheat was shipped from Russia this week, and reports from that country were of an unfavorable kind. Advances from France indicated weather was favorable for harvesting, but owing to the low prices prevailing some farmers had been threshing and were with-holding offerings.

Receipts at country points exceeded 1,000,000 bushels yesterday. A large part of this was from the west, and it was expected that the balance of the week would be similar.

Spreads, fractionally better than previous closing differences, were obtainable on most of the top grades of cash wheat, but offerings of all grades were light and sales consisted mostly of odd cars and small lots. Pit trade in all coarse grades was very thin.

And made up mostly of investment operations. Futures prices generally followed the action of wheat.

## Trend Easier With Heavier Offerings at Eastern Markets

MONTREAL, Aug. 18.—An irregular tone pervaded the Montreal Stock Market in dull trading today.

A last-minute rally brought fractional gains in three leading issues, but price changes were, with a few exceptions, of narrow range.

Montreal Power led the list in point of volume. Opening at 44 1/2, the issue advanced to 45, where it closed for a gain of 3-8. Nickel sold at 83-4 for the better part of the day, but rallied to close at 9, up 1-8

# At the Theatres

**EMPIRE** The new British comedy, "Aren't We All," starring Owen Nares and Gertrude Lawrence, now at the Empire Theatre, is light-hearted in spirit throughout, even though there are moments when the domestic happiness of Margot and Willie seems to be heading for the rocks of open hostilities. With a plot that is not too complex, but just hopped up enough to keep the interest at a keen edge at all times, this feature from the pen of Frederick Lonsdale (one of the more famous of today's writers for the American and British stage and movies), is a delightfully fascinating vehicle for the intelligent talents of Miss Lawrence and her excellent supporting cast. Directed by one who knows the field like a master, Harry Lachman—the film doesn't miss an opportunity to stimulate every laugh and romance-response an audience possesses. Lachman, who began his career as an artist, has been awarded the French Legion of Honor for his outstanding work in this field. In addition to its rib-tickling and heart-warming propensities, this film provides authenticity of detail which enhances its appeal to audiences. There are several very lavish scenes in the production, one of them in particular, opening night in a new cabaret, where much of the action takes place. The acting has been done on a grand scale.

actress never has pounded a typewriter in a news room or chased a story like so many screen authors and executives of today have done, she belongs to the press by one of the closest of ties. Her father, William Jurgens, is a Brooklyn newspaper man. Miss Twelvetrees, who plays the feminine lead opposite John Barrymore in "State's Attorney," the RKO Radio picture now showing at the Dominion Theatre, at one time contemplated joining the journalistic professions.

**CAPITOL** Jimmy Cagney, playing boxer in "Winner Take All," now showing at the Capitol Theatre, stepped into the ring at the studio and was promptly raised by seven hundred extras playing in the picture, who thought it was just another actor trying to be an athlete. After the first round of a scheduled ten-round bout, they were not raising, but cheering him. Playing opposite him in this realistic drama is Guy Kibbee.

**COLUMBIA** One of the most carefully selected and talented casts to reach the screen in recent months has been seen in RKO-Radio Pictures' dramatic hit "Men of Chance," now at the Columbia Theatre. Mary Astor, Ricardo Cortez, John Halliday and Ralph Ince are only a few of the veteran performers to be seen in the production.

## WEST IS ASKING NEW AGREEMENTS

Premiers and Civic Officials to Attempt to Secure Direct Relief Arrangement

REGINA, Sask., Aug. 18 (CP).—Members of the Saskatchewan Government are not expecting a special session of the Legislature to deal with direct relief, as forecast in a news dispatch from Winnipeg. The dispatch indicated special sessions would be called in Saskatchewan, Manitoba and Alberta if the arrangements made last year with the Federal Government, whereby Ottawa, the Provincial Governments and municipalities concerned each paid one-third of the cost, were not carried out. As a matter of fact, the Governments have not attempted to secure continuation of the old agreement, but are negotiating for a new agreement, whereby Ottawa will pay considerably more than local authorities.

With that end in view, Western Premiers will shortly go to Ottawa accompanied by representatives from various cities to press their claims for a better arrangement than the old one.

## B.C. APPLE CROP SHOWS INCREASE

Only Province in the Dominion to Yield Above Average, Ottawa Department Reports

VANCOUVER, Aug. 18 (CP).—Canada's total apple crop will be 10 per cent less than last year, or about equal to the five-year average, according to a report issued by the Dominion Department of Agriculture. British Columbia estimates an increase of 28 per cent, but all other provinces anticipate decreases.

The total yield estimated for British Columbia is 4,412,500 boxes, as against 3,445,730 for 1931 and 3,738,900 representing the five-year average.

British Columbia's yield this year will be more than two-fifths of the total crop for the Dominion.

For the first time the contract for the million pounds of corned beef required by the British Navy in a year has been let in New Zealand.

A hard and conscientious worker with a keen intelligence and good trading abilities, you will find your mettle in business life. You will, although a keen bargainer, never allow anyone else to put one over on you. Your disposition is a dependable one, and in fair or stormy weather, you mentally negotiate and persevere. You know what are your rights, and insist on them. You at no time crave indulgence or exceptional concessions. You are somewhat lacking in tolerance. With you there are no extenuating circumstances; a thing is either right or it is wrong. You recognize no middle road. You are just as severe a critic of yourself as you are of others.

So off they started in the moonlight. Peter in the lead.

He would like some sweet clover," confessed Peter, "and I know where there is a fine patch of it on the Green Meadows. The moonlight is so bright that I hadn't dared go there for fear I might be seen by Hooty the Owl or Reddy Fox. If only you liked sweet clover we could go together. With you along I wouldn't be afraid."

Jimmy grinned. "Thank you," said he. "It is true that I have a special liking for sweet clover, but where sweet clover is I often find white grubs, and if there is anything I do like it is fat white grubs. So show me the way to that clover patch."

So off they started in the moonlight. Peter in the lead. Every few steps he would stop to sit up and look and listen. It was lovely out there in the moonlight, but Peter couldn't help feeling nervous, even though Jimmy Skunk was along. So he kept sitting up to look and listen, which after all was right, proper and wise, for that was what he had been taught to do when young. And it was by doing it that he had managed to escape all his enemies and live so long.

But Jimmy Skunk ambled along slowly, without even stopping to look and listen. It was clear that he wasn't in the least worried. He wasn't afraid of anybody. So without hurrying he kept on his way, until at last he came to the patch of sweet clover.

Peter sat up then and looked long and hard on all sides and listened for any suspicious sounds. Then he squatted down and began to eat sweet clover. My, how good it tasted! But even in the midst of his enjoyment he would suddenly

sit up for a look around. It was the habit of a lifetime. Meanwhile Jimmy Skunk was wandering about this way and that. Presently he stopped, and with his hands dug down among the roots of the grass and clover. Then he pulled out a fat, white grub which had been busily at work eating the roots of the grass. Jimmy ate the white grub and began to search for another. Presently he found another. How he knew just where to dig I do not know. Perhaps he could hear those grubs eating the roots of the grass. Or maybe he had some instinct. He didn't dig any mistakes. He didn't dig any holes for nothing.

Now Peter didn't have to move about to get all he wanted to eat. He could sit still or almost still and get his grub. With Jimmy it was different. He would get but one grub each time he dug. So he had to wander about for quite a distance to get enough to satisfy his appetite. So little by little he wandered farther and farther from Peter. He didn't notice it. Neither did Peter. Each was too intent on stuffing himself to care.

Heed to the other. Jimmy was on sweet clover and Jimmy's thoughts were on white grubs, and Jimmy was concerned with anything else save that Peter der kept sitting up for a look around.

"I'm glad Mrs. Peter didn't want sweet clover," thought Peter as he stuffed himself.

"I'm glad Mrs. Jimmy drove me out," thought Jimmy Skunk as he dug up another white grub.

The next story, "Reddy Fox Becomes Interested."

## GOV. GENERAL IS NOW AT WINNIPEG

Viceroyal Party Given Rousing Reception on Arrival in First Western City

WINNIPEG, Aug. 18 (CP).—Herded by the booming of guns in royal salute, Their Excellencies the Earl and Countess of Benborough arrived here today. The arrival marked their first visit to Western Canada. The party will continue their journey westward Sunday night on a tour that will take them to the Pacific Coast.

The Viceroyal party was met at the station by His Honor J. D. McGregor, Lieutenant-Governor of Manitoba; Premier John Bracken and members of his Cabinet. Immediately after inspecting a guard of honor the distinguished visitors proceeded to the Parliament Buildings where an official greeting was extended.

Thousands lined the route of the drive to Government House. Their Excellencies, almost immediately started on an intense programme that will occupy almost the whole time of their four-day stay here. The Viceroyal party will attend a monster civic reception, at which a special mass-song festival has been arranged.

## What Today Means

"LEO"

If August 19 is your birthday, the best hours for you on this date are from 8 a.m. to 10 a.m. from 2 p.m. to 4 p.m., and from 7:30 p.m. to 9:15 p.m. The danger periods are from 11:15 a.m. to 1:10 p.m., and from 9:30 p.m. to 11:30 p.m.

The planetary aspects of August 19 indicate the unexpected. Something will happen which may change your outlook and your point of view, and which may insure to your ultimate advantage, although the benefits may not materialize for some weeks to come. Travel is noted, as well as new friendships.

A child born on this August 19 will develop a very delightful personality that will "make the going easy." It will, moreover, be gifted with a keen intelligence, forceful energy, and the ambition to excel in everything that it attempts.

It will be natural and spontaneous, full of initiative and originality. Born on August 19, you are straightforward, simple in your tastes, and rather more satisfied to remain as and where you are than fighting for something better, though less tangible, or seek fresh fields and pastures new. You are, without being stingy, quite thrifty, and an avowed enemy of living beyond your means or by incurring debts and obligations.
